

TRANSPORT Initiatives Edinburgh (TIE) has recommended to City of Edinburgh Council (CEC) that CAF, Spain, should be chosen to supply LRVs for the city's first light rail line. The contract calls for the supply of 27 40m-long LRVs with capacity for at least 230 passengers and a top speed of 80km/h. The council will decide this month whether to award CAF the contract, which includes up to 30 years maintenance.
